Pieter Bruegel il Vecchio

(Breda, c. 1525-1530 - Bruxelles, 1569), pittore e incisore, fu l'artista più significativo della pittura rinascimentale olandese e fiamminga. Noto per i suoi paesaggi e scene contadine (la cosiddetta pittura di genere), ebbe grande influenza sulla pittura olandese dell'età dell'oro per le sue ambientazioni innovative, quando i soggetti religiosi avevano cessato di essere l'oggetto della pittura.
